

304-545A Microelectronic Technology
Final project presentation schedule
Fall 2006

1	St-yves, Guillaume	Key fabrication issues in moving from 0.5um to 0.13um technology	Mon. Nov. 27
2	Nguyen, San	Principles and technology of solid state memories	Mon. Nov. 27
3	Siam, Mohamed	Advanced lithography: technology trends, limitations, equipment and manufacturers, future development.	Mon. Nov. 27
4	Song, Li	Evolution of interconnects for ULSI Technology	Wed. Nov. 29
5	Myers, Hadley F.	Principles, technology and evolution of photovoltaic solar cells	Wed. Nov. 29
